

# Fiction City

## Beseech

Don't you feel it's more than this, if you concentrate  
Take a look between the truth and things you cannot see  
Try to break that courage chain and leave yourself a while  
Step inside your deepest fear and separate this world  
Yes, I can feel disturbance is the air  
People that I knew are trying to break through  
No, I don't mind going for a ride to meet them in the Fiction City  
To meet them in the Fiction City  
Sometimes when I'm feeling down, I know that they are here  
Reflections of what they have seen ain't easy to ignore  
With respect of who they were before they touched the sky  
Step inside your deepest fear and separate this world  
Yes, I can feel disturbance is the air  
People that I knew are trying to break through  
No, I don't mind going for a ride to meet them in the Fiction City  
To meet them in the Fiction City
