

# Camp Fire Girl #62

## Guttermouth

She's got the healing powers of medicinal marijuana  
And she feeds herself the same ole crap she feeds to her iguana

And she won't go to the bar  
God forbid that she drive a car  
And of course she will protest the war

Chorus:

I get excited when I see her  
You better pass me the saltpeter  
Like a sailor on shore leave  
Like a recent parolee  
I want to date her but first bathe her  
She always eating echinacea  
On her feet are birkenstocks  
I guess my head is filled with rocks  
Most of her friends are never happy  
That is unless they're bitchin

She looks down up on my comrades like they're carcinogen  
She doesn't know what she's fighting for

Like a modern day conquistador  
And of course she will protest the war  
And even though she's an idiot

(chorus)

She doesn't know what she's fighting for

Like a modern day conquistador  
And of course she will protest the war  
And even though she's an idiot

Even though she's an idiot

(chorus)

I guess my head is filled with rocks rocks rocks
