

# Wings To Fly

## Gentleman

Every day we hear 'bout crosses  
People sit around and suffer and complain about those losses  
Finger pointing all the time about who cause this  
Yet to figure out it's just a bunch of jackasses  
All of this seems so unfair  
But God will never ever give we nothin' more than we can bear  
I see dem a gwaan without care  
Forget about the lesson dem have learn So we got no wings to fly  
We trying so hard all the time and it's pain enough to cry  
The sufferation it's a shame and it seems to multiply  
But it's not over until it's over  
There is no way to deny  
No it's not over until it's over From way back when we a war  
Systematically makin' a disturbance from near or far  
You putting bombs under cars  
Another terrorist attack and people dead inna the tourist bazaar  
And the victims dem a carry the scares  
And the actions and the livity we find so bizarre  
But if we keep our head up high we can make it to the sky And now we find the wings to fly  
We trying so hard all the time and it's joy enough to cry  
The sufferation it's a shame and it seems to multiply  
But it's not over until it's over  
There is no way to deny  
No it's not over until it's over Long time we know that tomorrow it will never come  
Vibes only momentary just like the rising sun  
Been around here long enough to know just where we coming from  
The blame and the shame and the fame will we get along  
It's incredible we last so long  
When right or wrong  
Live up to your fate be strong  
Is this the moment you've been waiting on  
This is the moment So we go the wings to fly  
We trying so hard all the time and it's joy enough to cry  
The sufferation it's a shame and it seems to multiply  
But it's not over until it's over  
There s no way to deny  
No it's not over until it's over? And so me sing again then All of this seems so unfair  
But God will never ever give we nothin' more than we can bear  
I see dem a gwaan without care

Forget about the lesson dem have learn  
So we got no wings to fly  
We trying so hard all the time and it's pain enough to cry  
The sufferation it's a shame and it seems to multiply  
But it's not over until it's over  
There is no way to deny  
No it's not over until it's over
