Over The Moon

Phreaky

I'm over the moon, doing my thing, doing my thing
I'm over the moon, just doing my thing and I won't come down!
I'm over the moon
No silver spoon in my milky way
When Simon told me I was trouble all I said is "Okay"
Now l-l-let me turn my swag on and step up to the plate
Then I'll put London in my pocket, up up up and away
I've been chillin' on a star with my five star view
I wanna get so far that I can see you move
Reach into the jar for a dream come true
I'm over the moon, doing my thing, doing my thing
I'm over the moon, just doing my thing, doing my thing
And I can't get enough
Life is feeling so good 'cause I keep moving up
I'm over the moon, doing my thing, and I won't come down
I'm over the moon
So watch your head cuz I'm throwing rocks
It feels like Red Bull gave me wings and I can't be stopped
You see I rhyme like a beast, but I sing like a flower
I'm feeling tall, so tall like the Eiffel Tower

I've been chillin' on a star with my five star view
I wanna get so far that I see you move
Reach into the jar for a dream come true
I'm over the moon, doing my thing, doing my thing.
I'm over the moon, just doing my thing, doing my thing
And I can't, get enough
Life is feeling so good as I keep moving up
I'm over the moon, doing my thing, and I won't come down
Floating in space
I love this place
E.T. says "Hey"
My minds so clear
This atmosphere
I got no fear
I"ve been chillin' on a star with my five star view
Reach into the jar for a dream come true
I'm over the moon. doing my thing, doing my thing
and I can't, get enough

Life is feeling so good as I keep moving up
I'm over the moon, doing my thing, and I won't come down
