

# Men Are From Mars, Women Are From Venus

## Curve

Turn it up  
Turn it down  
Switch it on  
Switch it off  
Called a friend  
Threw the phone  
Cut me down  
I'm lost  
I retire  
You resign  
I win  
You lose  
Break it up  
Break it down  
Men are from Mars  
Women are from Venus  
Show me up  
Drag you round  
I smile  
You frown  
Never have I known  
Such a liar  
Such a liar  
Such a liar  
Men are from Mars  
Women are from Venus  
We won't be happy  
'Til we kill each other  
Men are from mars  
It's the never ending stories  
That will be our greatest glory  
And our children will believe us  
Because the know that we can teach trust  
The point to living freely  
Is to hope that we'll see clearly  
And manage information  
For the next generation
