

Dime in My Pocket

Desert Noises

A dime in my pocket's a diamond in my hand
choose your religion, can't change an honest man
because I found jesus with the slight in his hand
building things lately that are meant to rust
saving your pennies, that's like man to lust
pennies won't save you when your heart is dust
Be so selfish you try ahead and run
choose your religion you're not the only one
because I found jesus not the only one
