How I Want to Live

Catman Cohen

Now you can live foreverA one-eyed cat
Walks along a wallNow you can live foreverLooks ahead
And sees it allNow you can live foreverBless the moon
That guides my wayNow you can live foreverAnd leads green lizards
To their graveNow you can live foreverIn air so hot
I can hardly breatheNow you can live foreverEscaped my past
And found my peaceNow you can live foreverIn dark deep caves
Where snakes grow bigNow you can live foreverThat's where I learned
How I want to liveNow you can live foreverHow I want to liveI'm alive
