

# Hell House

## Dark Lotus

In every neighborhood, you got your house that's supposedly haunted. Well in our neighborhood, there's the  
hell house, and  
right now nobody can believe it, but there's a sign out front of hell house, that says, "For Sale"  
[Monoxide Child]They tell me you can see the chalk lines  
In the middle of the living room  
A sure sign that somebody must've died there  
I think they said it was a bride and a groom  
And I guess they both died tryin' to run for the stairs  
I don't care, shoot me a price  
I wanna move in quick  
I wanna sleep with the bodies while the blood still drips  
Call me crazy but it's just what I want  
I really hope that shit happened and it's not just a fraud  
[Shaggy 2 Dope]Into the kitchen  
This kitchen floors full of cracked tiles and rat traps  
When the sink goes on the drips will make your head crack  
And those cupboard doors smackin' open and closed  
A preist came to do a blessin' but he got hosed  
Pedophile  
And that's just the beginning  
Cause other shelves are stacked with plates  
And they spinnin' on them  
And I heard the drawers open and knives get to flinging  
The folks that stayed here got seventeen in them  
[Chorus]Did you hear it?  
Hell house for sale  
Did you hear the hell house for sale  
With the spirits  
Hell house for sale  
Did you hear the hell house for sale  
Did you hear it  
How much they want?  
How much they want?  
How much they want?  
How much they want?  
With the spirits  
Did you hear the hell house for sale  
[Blaze Ya Dead Homie]Into the bedroom  
They say they found his wife's body mangled on the bed

With six inch wounds to the back of her head

Her kids were there too  
both hanging in the closet with  
one extension cord and there  
blood still on it

Thinking bout the blood  
it was the most they ever saw  
on the clothes, on the floors,  
on the sheets and on the wall  
no one could believe their there  
for their last finding

underneath the bed formed  
mutilated grindings  
In the house theres a stair way  
leading to the addic  
they say it was a room where

the witch did magic  
on the 12th day of every month  
you could hear her yell  
like a curse on the neighborhood  
for sending her to hell

I was soo interested i had to know more stole ladder and i climbed  
threw the window on th 2nd floor  
strait to addic cold chills  
with no suprise and to a girl  
named amy and a with givin evil eyes

[Chorus]Did you hear it?

Hell house for sale  
Did you hear the hell house for sale

With the spirits  
Hell house for sale  
Did you hear the hell house for sale

Did you hear it  
How much they want?  
How much they want?  
How much they want?  
How much they want?

With the spirits  
Did you hear the hell house for sale  
They say that in the basements  
where it all went down

They cemented the walls and repainted the ground  
to hide blood stains and pentagrams  
that were there before they

put chain and padlock on the celler door(celler door)  
but this is hell house  
aint no change in the pain and stop in  
the shit the lerks and lives inside  
the dirt in the cracks  
and the fram works dont say it a talltail  
thats ywhy they call it hell house  
and its always for sale  
I hear the back yard is a cemetry of bodies and if it rains  
hard enough you see the top  
of they noggins  
they got ropes that they hung bodies from  
its frightening  
some nights i hear the gurggle of gas and ropes tightening  
there are always vultures  
circling in the sky and the sun  
nevr shines house coverd in vines and smell  
comin out of that yard 'll  
choke a pig i skate board back and forth smokin a jill  
[Chorus]Did you hear it?  
Hell house for sale  
Did you hear the hell house for sale  
With the spirits  
Hell house for sale  
Did you hear the hell house for sale  
Did you hear it  
How much they want?  
How much they want?  
How much they want?  
How much they want?  
With the spirits  
Did you hear the hell house for sale
