

# Run

## Addison Road

Stoplights, breakdown, we cry, last try  
Worlds collide, time to decide  
Where you wanna go in this great big world  
Where you wanna go in this great big world  
Stuck here too long in this sad song  
Lost on a street, Everyone has vanished  
So you're all alone  
But you don't know where to go  
Yeah you're all alone  
And you wanna go home  
Run just as fast as you can  
Run 'til you reach the end  
Where the falling finally land  
And your world starts over again  
Run  
Next page, new day, finding my way  
Stumble upon the strength to move on  
'Cause I am not alone in this great big world  
And you are not alone in this great big world  
So run just as fast as you can  
Run 'til you reach the end  
Where the falling finally land  
Your world starts over again  
Run now don't you look back  
Run towards the light straight ahead  
Where the lost souls make a beautiful sound  
And new life is finally found  
Run  
You're free, free falling  
A new beginning  
This is our time  
Run just as fast as you can  
Run 'til you reach the end  
Where the falling finally land  
Your world starts over again  
Run now don't you look back  
Run towards the light straight ahead  
Where the lost souls make a beautiful sound  
And new life is finally found  
Run  
It's time to run  
It's time to run
