

One Step Closer

American Juniors

One step closer to heaven baby
Means one step closer to you
One step closer to heaven baby
Means one step closer to you
I've been waitin'
Such a long time just tryin' to get through
And it's takin'
All of my strength to keep me here, away from you
It doesn't matter just how long it takes
Nothing changes when we're apart
It's just a little bit longer, we've come this far
One step closer to heaven baby
Means one step closer to you
There'll be no more livin' without you, baby
I'm counting each minute 'till I'm back to you
One step closer to heaven baby
Hold on, hold on, hold on to my lovin'
I've been savin' every little bit of my love for you
I've been dreamin' just to get by
It's so exciting, fantasizin'
It doesn't matter just how long it takes
Just to know we'll be back together
And this time it's forever
One step closer to heaven baby
Means one step closer to you
They'll be no more livin' without you, baby
I'm counting each minute 'till I'm back to you
One step closer to heaven baby
Hold on, hold on, hold on to my lovin'
One step closer to heaven baby
Means one step closer to you
One step closer to heaven baby
Means one step closer to you
It doesn't matter just how long it takes
Nothing changes when we're apart
It's just a little bit longer, we've come this far
One step closer to heaven baby
Means one step closer to you
(One step closer)

They'll be no more livin' without you, baby
I'm counting each minute 'till I'm back to you
One step closer to heaven baby
Means one step closer to you
(One step closer)
They'll be no more livin' without you, baby
I'm counting each minute 'till I'm back to you
One step closer to heaven baby
Hold on, hold on, hold on to my lovin'
