# Melba's Blues

## Dave Lambert, Jon Hendricks & Yolande Bavan

Miss Liston wrote her a melody, 'bout her life
She tried to accent the happiness, cool the strife
She told a real soulful story that never ends
About the hard time you have tryin' to find some good friends
And she called it Melba's Blues
Miss Liston wrote something pretty that's nice and sweet
So sweet you can't hardly dig that it's got a beat
She tries tell how a woman does all she can
About the hard time she has tryin' to find a good man
And she called it Melba's Blues
It's just a real pretty ballad that's nice to play
The kind of song when you hear it you gotta sway
She made so soft and gentle to please the ear
So people won't realize it's the blues that they hear
And she called it Melba's Blues
And she called it Melba's Blues
