My Way Out

The Expendables

Standing at the edge, edge of it all
Spitting off the top, watch the day unfurl
Cannot see the view from this place
Clouds are on the rise, world is out of faith
Took another pill to find my way
Hope that you'll be there
'Cause this is my way out of it tonight
And this is my last chance to ease the fire
And this is my way out of it tonight
How about you? How about you?
Borrowed from a dream that I use to know
All my friends were there
We watched the world explode
Took another drink to find my way
Just hope that you'll be there
'Cause this is my way out of it tonight
And this is my last chance to ease the fire
And this is my way out of it tonight
I might find one way to get through
How about you? How about you?
How about you?
And if I could remember
If I could find a place, a time
The space to see another way home
And if I could forget you
Maybe there's no other way out
No other way out
(How about you?)

(How about you?)
Standing at the edge
(How about you?)
Edge of it all
(How about you?)
(How about you?)
(How about you?)
Standing at the edge
(How about you?)
Edge of it all

(How about you?)
(How about you?)
'Cause this is my way out of it tonight
And this is my last chance to ease the fire
And this is my way out of it tonight
I think there's one way to get through
How about you?
'Cause this is my way out of it tonight
And this is my last chance to ease the fire
And this is my way out of it tonight
I might find one way to get through
How about you?
'Cause this is my way out of it tonight
And this is my last chance to ease the fire
And this is my way out of it tonight
I might find one way to get through
How about you? How about you?
How about you?
