

Can't Be Love (feat. Miranda)

Blaine

Do you believe in love
no no
do you believe in love
yeah yeah
if so you are a wise man my brother
a wise man my brother
hello miss everything you the baddest girl i seen in the world
hair is so pretty your skin is so chocolate
my hersheys of love
my heart seems to stop everytime i look deep in your eyes
i pray for the day that i could turn you from my girl right into my wife
see i know that im moving fast
but im scared to lose you so id rather make this last
i know your girls be talking shit
but i pray that you dont hear
im proud to call you my chick so lets move past this fear
and run into the light that we both love
i give you free hugs
slowly sneak my hands down your back and give you some booty rubs
rub a dub dub all in the tub after i feel it up
light up some candles and blow some weed until i sogi rub
love
you remind me of the first kiss i ever had
you remind me of my first crush that should have last
you make me feel like i have butterflies all down in my gut
and everytime i think of you i seem to ease up
this cant be love oh yes it is (x4)
oh shit ima keep it so real
you fine and i dont know how i feel
to let you ally this crib
i wont lock you in forever
i hope that rains cuz thats the perfect weather
to make you change your mind
go hot and ill find
ill creep upp right behind you
do somethings you like
i make your friends call you bad
girl you nasty
your legs might as well be elastic

them things be bending like backless
turn your heartway into an alley
ohhh woah
see thats the shit that you like there
baby girl calm down i wont mess up your hair
your roommate knocking so now you got to act aware
this cupid shot me and high to hell he gotta here
you remind me of the first kiss i ever had
you remind me of my first crush that should have last
you make me feel like i got butterflies all down in my gut
and everytime i think of you i seem to ease up
this cant be love oh yes it is (x4)
oh yea oh yea oh yea
yeah hello its me again
i know you just left and everything
but i just wanted to give you a call and uhh
tell you how much umm
i appreciate you... and how much
i care for everything you do for me
and thanks for showing me love
love you
you remind me of the first kiss i ever had
you remind me of my first crush that should have last
you make me feel like i got butterflies all down in my gut
and every time i think of you i seem to ease up
this cant be love oh yes it is (x3)
oh no no on
