Equalized

Jawbreaker

Friend called today
Said "No more no way"
He saw things different today
Ran out of trust
The world ain't big enough
For a feeling man with a planDreams die today
Do you call this living really!
Too much hassle too much risk
Inside the holes your digging
Dreams die today
Do you call this living really!
No more disappointmentsPlease remain seated
Your number's coming
Do not question these commands
Just walk the dog
Be a bump on a log
Watch tv until you're blindDreams die today
Do you call this living really!
Too much hassle too much risk
Inside the holes your digging
Dreams die today
Do you call this living really!
No more disappointmentsEveryone's equalized
See the look in their eyes
No more vital signs they're gone
We've got a new dream
We're on the winning team
We're going to sleep our way through hellDreams die today
Do you call this living really!
Too much hassle too much risk
Inside the holes your digging
Dreams die today
Do you call this living really!
No more disappointments
