

The Poison Hand

Six Feet Under

Deadly to you
You'll just fade away
Nothing left in your head
This is the touch of death Deadly to you
You'll just fade away
Nothing left in your head
This is the touch of death You're just fadin' away
To the grave
There's no savin' you now
There's no savin' you now, no Deadly to you
You'll just fade away
Nothing left in your head
This is the touch of death This is the touch of death
This is the touch of death
Nothing left in your head
Nothing left in your head You're just fadin' away
To the grave
