

# Ways I Can't Tell

## Crystal Fighters

You and me  
Peas in a pod  
Me on the guitar, you on the drum  
Scheming together  
Partners in crime, never caught  
So what is this I can never say  
So wanna dance baby?  
Cause this is our song, this is our song  
It's all over now  
In the way's I can not tell ya  
Can't held the dream of us together  
In the way's I can not tell ya  
Can't held the dream of us together  
In the way's I can not tell ya  
I dream the dream of us together  
Together  
Can't held the dream of us together/x2Me and you  
It might be magic  
When you reach that new understanding  
I see fireworks in celebration  
Ceremony  
Initiation  
So what is this I can never say  
So wanna dance baby?  
Cause this is our song, this is our song  
It's all over now  
In the way's I can not tell ya  
Can't held the dream of us together  
In the way's I can not tell ya  
Can't held the dream of us together  
In the way's I can not tell ya  
I dream the dream of us together  
Together  
Can't held the dream of us together/x2In all the ways that I...  
In all the ways that I.../x2In all the ways that I...  
In all the ways that I...  
This is our song, our song now/x2In the way's I can not tell ya  
I dream the dream of us together  
Together  
Can't held the dream of us together/x2
