

Sounds Like A Personal Problem

Ghost of the Robot

What is this crap, I'm going through,
where am I at, and who are you,
to make me feel, like I'm so scared,
caught me off-guard, was no problem,
for you,
so smart, so cool,
to me,
life seems, it shouldn't be this way.
So here I am, and there you are,
sitting so close, feeling so far,
from me and I, can't figure out,
what I should say, what's this about,
to you,
too smart, too cool,
for me,

life seems, it shouldn't be this way...written by Charlie DeMars
