

I'll Find a Way

[Rachael Yamagata](#)

I'll find a way to see you again I used to think that anything I'd do

Wouldn't matter at all anyway

But now I find that when it comes to you

I'm the winner of cards I can't play

Wait for me

Darling, I need you desperately here And I'll find a way to see you again The rain is like an orchestra to me

Little gifts from above meant to say

Girl, you falling at his feet

Isn't lovely or stunning today

Wait for me

I'm alive when you're here with me, stay And I'll find a way to see you again Why do the street lamps die

When you're passing by

Like a band that won't stay on my shoulder tonight?

If you held me close, would you laugh it away?

Would you dare the glance that I steal to stay? And I'll find a way to see you again The rain will bring me down
