

Left Alone

Souleye

Verse 1

Satisfaction is always guaranteed /
Whether walking on land /
Or floating over the ocean /
Musically Iâ€™ve written words that carry me /
Through the everglades of time /
Your page a galaxy / Sophisticated /
I saw a fist I saw it raise it was in hatred /
Gaia vs Satan / My mind is contemplating /
Itâ€™s funny how weâ€™re related /
Started as a seed and then a dream /
An years later / We all come together again /
The world of life it seems to spin inside an endless circle /
The laws of virtue / Let it ascend weâ€™re all innocent /
Theyâ€™ve got us confused on how to live /
What really went wrong / I call for peace and love /
An use music as meditation write it in your song /
Thatâ€™s the healing of the nation /
Itâ€™s not a secret or hard to find /
Itâ€™s your soul breaking free from a human paradigm /

Chorus

She sings us letters and little la la byes /
Beauty my friends is always within you /
Your deep feelings can save you and guide you /
No disguise will ever truly hide you /
Beauty my friends is always in you /
Itâ€™s always in you /

Verse 2

Itâ€™s daily rapping that is powered by adrenaline /
Focused on a lotus thatâ€™s heaven sent /
I turned the card ace face up /
You canâ€™t blame anyone but yourself /

Filthy rich could mean rotten in wealth /
Pardon my speech / The thought has been dealt /
A part of my heart is categorized as a carnival /
See you later Iâ€™m going in to the zone /
Father look, your small child is a man /
Slowly on his own he had to formulate his plan /
Perception is a boundary until you take a stand /
Feet deeply rooted and planted to hold your ohm /
Canalization of your imagination / Free Spirit /
Living to know the knowledge of the un-known /
Word lyric / Powerful like a hieroglyphic /
See the sun as itâ€™s setting like its soaking in to the sea /
Cycles of energy /

Verse 3

We shall never ever stop this music it is created /
By sacred ancient beings / If seeing is believing /
Got to know what you believing or you wonâ€™t be seeing /
Simplicity in motion / I can see the beauty in your eyes /
When we are talking often just sparking a small conversation /
Visions of a vacant place to lay naked underneath a blanket /
Thank the time I have as a poet that can rap /
Know my place in the universe and keep it versatile /
Situations they always change like my pages /
An preparation for the mystery is amazing /
To play the game of life itâ€™s fun to know what you are facing /
Facing all your phases / Dancing in the matrix /
I wear an amethyst stone as a necklace /
See through the mist of the morning with a smile /
