Steelrose

Project Pitchfork

steelrose
without sense
glowing in red
scorching my hands
steelrose
restricted rights
scorched soul
my heart ignites
too much pain
too much utilize
too much time
too much sacrifice
Steelrose - vanity overdose
steelrose
thorns like razorblades
cut me deep
my blood shall be the water
which annihilates the flame
steelrose
blood smeared hands
red becomes black
I will be the Ice
which crushes your might
don't you understand
I gave my heart in your hand
