You'll Never Know Me

Polock

Try to stay on this side
You don't know what's to come
Something starts to hold you
Unsure where you belong
You should try your best to smile
Do something beautiful
Shooting guns to close eyes
You'll get what you deserveYou'll never know me
You'll never know me
Another country
Do you wanna let go?
Leave things somewhere you know
You'll reach out for me
You'll reach out for me
Misunderstanding
Rising up the corner
Everything is over nowRun away from this main hall
Teach me something unknown
Practicing with paper heads
Evil disguised as good
You can have more anytime
I'll get your favors done
Never been good shaking hands
Felt up against the wallYou'll never know me
You'll never know me
Another country
Do you wanna let go?
Leave things somewhere you know
You'll reach out for me
You'll reach out for me
Misunderstanding
Rising up the corner
Everything is over nowYou'll never know me
You'll never know me
Another country
Do you wanna let go?
Everything is overYou'll never know me
You'll never know me
Another country

Do you wanna let go?
Leave things somewhere you know
You'll reach out for me
You'll reach out for me
Misunderstanding
Rising up the corner
Everything is over
