I'm Alive

Girls Under Glass

In this world I am lonely and lost
Life is suspicious never giving my trust
In this society I am imprisoned by my mind
I am searching for the sense of being
How can I find?But I am alive, hold me, when I am falling
I am alive when I take my chance
I am alive, rise up, when I am crawling
I am alive for youIn my darkest moments asking myself who I am
Asking for the way back into light
Sometimes again but
