Horses

Varjen

Last night I brought you a ladder
To climb the top of this wall
A wall that was built right between us
All ragged, fragile and tallYour afraid not to have children
Not to fill your gap from the past
In your dreams life is beginning
To unravel things that could lastBut it's me, its me I believe in!
it's me Im back from dead!
You wear my heart on your shoulder
You wear my heart on your headThe way we are bleeding
When we hunt across the fields
Like horses in the free
We are running..They say you live with your sister
To hide your lonesome eyes
I'm still lost in your this jungle
A long lived primitive lifeBut its me its me i believe in!
It' s me Im back from the dead!
You wear my heart on your shoulder
You wear my heart on your headThe way we are bleeding
When we hunt across the fields
Like horses in the free
We are running..Let your freedom ride on the back of you
Let your freedom ride with you
Let your freedom ride on the back of you
Let your freedom ride with you
