# Sexual Attention

## 3T

How you like it now
How you like it now, baby
You need me
You need me too, yeahI can't hide from things that you do to me
Even though you deny every girl with me
You say we're friends when I say that we're much more
And how could I let go of what I've been looking forI can't let you take control of me
(Oh no, no, no)
I've gotta get you to give me what I needI need sexual attention, baby I should mention
There's something that I need from you
I wanna love and I need you to need me tooOh, sexual attention baby I should mention
There's something that I need from you
(Something that I need from love)
I wanna love and I need you to need me tooI can't see what you wanna get from me
I give you good love and more, yeah, everything
Can you give me one reason why we should be apart
If I mean anything to you tell it to my heart, oh yeahI can't let you take control of me
(Oh no, no, no)
I've gotta get you to give me what I needI need sexual attention, baby I should mention
There's something that I need from you
I wanna love and I need you to need me too
(I need, I need, I need)Oh, sexual attention baby I should mention
(Sexual attention)
There's something that I need from you
(Something that I need)
I wanna love and I need you to love me too
(I wanna love, I need to love, hey)What I want from you is
(Sexual I need from you, yeah)
What I need for love right now
(Me to you, me to you, me to you and me, yeah, and me, yeah)Sexual attention, baby I should mention
Is something that I need from you
I wanna love and I need you to need me too
(Said I need from you)Oh, sexual attention baby I should mention
There's something that I need from you
I wanna love and I need you to need me too
(Girl you know I need you to need me)Sexual attention baby I should mention
(Sexual attention)
There's something that I need from you
(Girl you know I need your love)

I wanna love and I need you to need me too
(Girl I need the love from you)Oh, sexual attention baby I should mention
Is something that I need from you
I wanna love and I need you to need me too
