

Party, My House, Be There

[MxPx](#)

It's about time, for a party at my house
And it wouldn't be the same, without you
No, not at all, as I recall
You've got what I need Bring along yourself
And don't forget that smile
Plan on stayin' a while
Till summer turns to fall, as I recall
You've got what I need You said, you were leaving
I said, you were crazy
You said that
You have some things to do I'll see you in a while
And don't forget that smile
What else
Could there possibly be to do? Bring along yourself
And don't forget that smile
And plan on stayin' a while
Till summer turns to fall, as I recall
You've got what I need You said, you were leaving
I said, you were crazy
You said that
You have some things to do I'll see you in a while
And don't forget that smile
What else
Could there possibly be to do?
