

Night of the Living Baseheads

Public Enemy

Here it is, bamm
And you say goddamn, this is the dope jam
But let's define the term called dope
And you think it mean funky now noHere is a true tale of the ones that deal
Are the ones that fail, yeah
You can move if you wanna move
What it prove, it's here like the grooveThe problem is this we gotta' fix it
Check out the justice and how they run it
Sellin', smellin', sniffin', riffin'
And brothers try to get swift an'Sell to their own, rob a home
While some shrivel to bone
Like comatose walkin' around
Please don't confuse this with the sound
I'm talking about baseBase
Base
BaseI put this together to rock the bells of those that
Boost the dose of lack a lack
And those that sell to black
Shame on a brother when he dealin'
The same block where my '98 be wheelin'And everybody know another kilo
From a corner from a brother keep another below
Stop illin' and killin', stop grillin'
Yo, black, yo, we are willin'4, 5 o'clock in the mornin', wait a minute y'all
The fiends are fiendin'
Day to day to day they say no other way
This stuff is really bad, I'm talkin' 'bout bassBase
Base
BaseHow long can you go?
How long can you go?
How long can you go?
How long can you go?Yo, listen, I see it on their faces
First come first serve basis
Standin' in line, checkin' the time
Homeboys playin' the curb
The same ones that used to do herbNow they're gone, passin' it on
Poison attack, the black word bond
My man Daddy-O, once said to me
He knew a brother who stayed all day in his jeep
And at night he went to sleep

And in the mornin' all he had was sneakers on his feet
The culprit used to jam and rock the mike, yo
He stripped the jeep to fill his pipe
And wander around to find a place
Where they rocked to a different kind of c'mon y'all
Succotash is a miracle kids that make cash
Sellin' drugs to the brother man instead of the other man
Brothers and sisters I'm talking 'bout
Base
Base
...
