

A Shelter, a Weapon

Deptford Goth

When the rain came,
Didn't hear everything.
Created in hole, a shelter built
When we woke up,
got a little lost though
sometimes fell back, recoiled and stung.
Got love, use it like a weapon baby, work out what's going on.
Got a life time use like it a weapon baby, work out what's going on.
If you want me you can have me till the end of time.
If you want me you can have me till the end of time.
you stole for me, held an ordinary power.
Since I've been your boy couldn't be another now
Cause you're a long time dead, stop playing around, hiding
out here in ground. Things got low and they will again, fight them off when they come
Got love, use it like a weapon baby work out what's going on.
Got a life time use like it a weapon baby work out what's going on.
If you want me you can have me till the end of time
If you want me you can have me till the end of time
If you want me you can have me till the end of time
If you want me you can have me till the end of time
You don't need me to tell you - you've got love, use it like a weapon baby
got a life time use it like a weapon
gotta life time use like it a weapon baby work out what's going on.
