Seven Endless Horizons

Varathron

[From the Genesis of Apocryphal Desire demo]The dependence of an unholy civilization
The society of ultimate death ?The coming from the past
The one who will sigh the futureForgotten nameless graves ?Inside the leper jungles
Desolation of exiled angelsThere where the light is dying ?An the darkness is ruling forever
Sacrifice for them in the altars of VarathronThe Graal which will give ?Life to the Dark Lords
The mystificated mass ?Which will sign the worldThere where the light is dying ?An the darkness is ruling forever
Sacrifice for them in the altars of VarathronSeven sighs, seven scriptures ?Seven gates whom will open
To break out the terrible nightmare
In the whirlwind of a painless endSeven beasts, seven wizards ?Seven endless horizons
Sacrifice myself to the demons ?Black window opens in the sky
