

My Boys

Twin Peaks

Long way home, my boys, long way home
90 miles an hour down the fuckin' street with my friends, my boys
It's a long way home
Long way home, my boys, long way home
90 miles an hour down the fuckin' road and I'm stoned, my boys
It's a long way home
Well this trip is long
How did it get so long?
Remember what you promised them Long way home, long way home
90 miles an hour down the fucking road and I'm stoned, with my boys
It's a long way home
Long way home, long way home
90 miles an hour down the fucking street with my team, my boys
Well it's been so long since you said so long
Remember what you promised them
