Feeder

We are the chosen
We are the few
We were sent here
To give guidance to our youth We are the future
We are the face
So let's come together
Be as one today We did it all for love
Just so you could feel the love Love is a fire
Love is a flame
We are sent here
To be tested once again Settle persuasion
This is the time
As we come together
One step out of line We did it all for love
Just so you could feel the love We are the chosen
We are the few
We were sent here
To give guidance to our youth You are the future
You are the face
So let's come together
Be as one today We did it all for love
Just so you could feel the love
We did it all for love
Just so you could feel the love
