Living For the Night

Savatage

In circles the winless fall
Head trapped between the wall
Sonic blast right through their ears
Iron curtain the mighty will fall
Visions on a crystal ball
Sorry tales of days gone pastLiving for the night
Living for the nightJust a thought before your mind is lost
Do you know who you are?
Criminal days
Life trapped inside a maze
And little children can't go outLiving for the night
Living for the nightOut of touch, out of control
You watch the metal roll
You play the part
Just oh so well, ahLike a torch without a flame
A pleasure victim of pain
You're caught inside
And can't get outLiving for the night
Living for the night
Living for the night
Living for the night
Living for the night
