

Bad Luck

Langhorne Slim & The Law

I kissed my mother, I kissed my friends, I told my brother not coming home again and I said might not be lucky
even though I have tried bad luck got in me but I will survive (come one in)
I was born with a thorn in my soul sometimes it hurts might not got much but I know what its worth and I said
might not be lucky even though I have tried bad luck got in me but I will survive (aw yeah)
Well I was born with a thorn in my soul guess it couldnt be worse might not got much but I know what its worth
might not be lucky even though I know I have tried bad luck got in me so I will survive
I kissed my mother, I kissed my friends, I told my brother John not coming home again and I said might not be
lucky even though I have tried bad luck got in me but I will survive and I said bad luck got in me but I will
survive I said bad luck got in me but I will survive.
