

I Wont Be Lonely Tonight

Zucchero

Standing alone in the night
People talk around me
Under the neon street light
Tryin' hard to hold on
I need somebody's love to
Surround meTossing a coin in the air
Making my decision
What has gone wrong with my life
I've drunk all my religion
I need somebody's love
To remind meI won't be lonely tonight
All I want's another baby
I won't be lonely tonight
All I need's another babyHeads I leave town in the night
Tails I drink a bottle
If it should land on its side
I'll return to love you
I need somebody's life to
Surround meI won't be lonely tonight
All I want's another baby
I won't be lonely tonight
All I need's another babyAnd this is the last time
I wanna be
I'm gonna beI won't be lonely tonight
All I want's another baby
I won't be lonely tonight
All I need's another baby
