

# So You'd Like to Save the World

Lloyd Cole

So you'd like to save the world  
I suggest you take one person at a time  
And start with me  
Not an ordinary girl  
Not someone that I should hit upon  
And ask, "hey what's your sign babe"  
Have you been reading my mind  
(what did you find)  
Nothing more or less terrestrial  
Could I keep you in mind Did you really cry  
When you saw the hole in the sky  
Did you really hold your head and hide your eyes  
Well that's all right  
You might call it ultraviolet radiation  
It's only sunlight So you'd like to save my world  
If you could free my inner child  
Then I could free your inhibitions babe  
Or would you like to mother me  
I love the way you wear  
That motorola generation chic mama Have you been reading my mind  
(what did you find)  
Nothing more or less terrestrial  
Could I keep you in mind Did you really cry  
When you saw the hole in the sky  
Did you really hold your head and hide your eyes  
Well that's all right  
You might call it ultraviolet radiation  
It's only sunlight (sha la la sunlight)  
Ah yes it is (sha la la sunlight)  
Ah yes it is now (sha la la sunlight)  
It's only sunlight  
You might call it ultraviolet radiation So you'd like to save the world  
I'd really like to help you  
I'd really like to be you for a while  
Is that all right  
And I could call it ultraviolet radiation  
It's only sunlight (sha la la sunlight)  
Don't you know (sha la la sunlight)  
It's only sunlight (sha la la sunlight)

It's only sunlight  
But you might call it ultraviolet radiation
