

Do What You Like

Take That

Do what you like
Do what you want Sugar sweet, if only they all knew
Jam, cant spread no more youve took my bread
Energy, just work, or rest or play
Me, myself Id rather be alone again So you can do what you like
Do what you like
No need to ask me
Do what you want
Do what you like
Do what you like
No need to tell me
Do what you want Cherry pie, youre not as cute as me
Ice, could never be as cold as you
Recipe, you stir me up inside
Me, myself Id rather be alone again So you can do what you like
Do what you like
No need to ask me
Do what you want
Do what you like
Do what you like
No need to tell me
Do what you want Do what you like
Do what you like
No need to ask me
Do what you want
Do what you like
No need to tell me
No need to tell me Baby, baby
Do what you like, I no
Do what you want, to me
Do what you like
Do what you want Me, myself, Id rather be alone again
So you can do what you like
Do what you like
Do what you like
No need to ask me
Do what you want
Do what you like
Do what you like

No need to tell me
Do what you wantDo what you like
Do what you like
No need to ask me
Do what you want
Do what you like
