

Victory at Monterey

[Albert Hammond, Jr.](#)

She's got buttons with their names on it
Those sounds, well they tell you everything
And it all goes back again
Well, and it all goes back again I said, "Victory at Monterey"
She said, "Won't you come down and play?"
That's sad, you didn't win anything
That's sad, victory at Monterey Happy, man I got lost in you
Well I'm always, always gonna find you
I'm so glad now that I have you back
Happy, happy cause I know it's true
Now that I have you back I said, "Victory at Monterey"
She said, "Won't you come down and play?"
That's sad, you didn't win at anything
That's sad, victory at Monterey I said, "Victory at Monterey"
She said, "Won't you come down and play?"
That's sad, you didn't win anything
That's sad, victory at Monterey Happy, happy cause I know it's true
I'm so glad now that I have you
Now that I have you back
