

# Are You Down With It

## Handsome Boy Modeling School

Advisory - the following lyrics contain explicit language:

Are you down with it?  
Are you down with it?  
Are you down with it? In my words that I mend  
Hand in hand, across the land  
For the line in time  
Peace of mind for all mankind Yeah, right, you know how it is and if not, here's a pop quiz  
Who's gonna strike first for better, for worse, well, that's us  
And either with us or against us  
So put up or shut up, it's kill or be killed  
An eye for an eye, you're gonna get strung up  
Like a P O W M I A in California  
We're all going AWOL like fuckin' a holes  
And there's shit on the flag and blood on the rainbows Buildings fall after all but we're still livin'  
Drop the bomb right or wrong but we're still livin'  
Turn the page on the rage, I get down with it  
Keep on dreamin' on, dreamin on Buildings fall after all but we're still livin'  
Drop the bomb right or wrong but we're still livin'  
Close your eyes, I'll surprise, I get down with it  
Keep on dreamin' on, keep dreamin' on Are you down with it?  
Are you down with it?  
You know Peace and love, one truth  
High above, no me or you  
One side, one love  
One way, which side are you on? Oh, I'm sick of the smiles the Destiny's cChilds and being lied to  
I'm sick of the boys and girls and being paid no mind to  
I gotta look out for number one and that's me, a man with out a country  
Who's lookin' out for me who's carvin' my name in a tree  
Wouldn't be here without me, wouldn't sleep here without me  
Couldn't die in the street here in the land of the free  
Gotta try and find my Stars and Stripes  
And be all I can muthafuckin' be Buildings fall after all but we're still livin'  
Drop the bomb right or wrong but we're still livin'

Turn the page on the rage, I get down with it  
Keep on dreamin' on, dreamin on'Buildings fall after all but we're still livin'  
Drop the bomb right or wrong but we're still livin'  
Close your eyes, I'll surprise, I get down with it  
Keep on dreamin' on, keep dreamin' onAre you down with it?  
Are you down with it?  
You knowAre you down with it?
