

# Kind of Girl

## Low

Half your life you kept it in  
Born without a stomach  
Now the thread around you spins No, you're not that kind of girl  
No, you could've had the world Every time they lift you up  
Every time more thread to cut  
Seems like you've been cut enough No, you're not that kind of girl  
No, you could've had the world Now lesser things  
Pull the strings  
Of priests and kings No, you're not that kind of girl  
No, you could've had the world
