

# Back To Love

## Evelyn "Champagne" King

Can you feel it?

All that space in between us

I know you can feel it, I miss you just a little too much

Memories in the breeze, are they gone now?

Thought that I would be right, but I?m wrong now

So many feelings,

I miss you just a little too much

We built it up, then let it all crash down

We had it all, but let it burn to the ground

But maybe we can turn around and get back

Cause right now we?re off track

I?m looking for a way back to love

I need you now, I?m feenin' for your touch

Come back to love [x2]

Can you see it?

Or did everything we were turn into dust?

Do you believe it?

Can we ever get back to us?

To us baby!

Memories in the breeze, are they gone now?

Thought that I would be right, but I?m wrong now

So many feelings,

I miss you just a little too much

We built it up, and let it all crash down

We had it all, but let it burn to the ground

But maybe we can turn around and get back

Cause right now we?re off track

I?m looking for a way back to love

I need you now, I?m feenin' for your touch

Come back to love [x3]

We built it up, and let it all crash down

We had it all, but let it burn to the ground

But maybe we can turn around and get back

Cause right now we?re off track

I?m looking for a way back to love

I need you now, I?m feenin' for your touch

Come back to love [x3]
