

# Living Room

## Tegan and Sara

My windows look into your living room  
I spend the afternoon on top of you  
I wonder what it is  
That I did to make you move in  
Across away from me  
I hope I never figure out  
Who broke your heart  
And if I do, if I do I'd spend all night losing sleep  
I'd spend the night and I lose my mind  
Well I'd spend the night and I'd lose my mind My windows look into your bathroom  
Well I spend the evening watching you get yourself clean  
And I wonder why it is  
That they left this bathroom so unclean  
So unlike me  
I hope I never figure out  
Who broke your heart  
And if I do, if I do I'd spend all night losing sleep  
I'd spend the night and I lose my mind  
I'd spend the night and I lose my mind I'd spend all night losing sleep  
I'd spend the night and I lose my mind  
If I spend the night then I lose my mind Well I hope I never figure out who broke your heart  
And baby if I do  
Well I hope I never figure out who broke your heart  
Baby if I do Well I'd spend all night losing sleep  
I'd spend the night and I lose my mind  
If I spend the night then I lose my mind Spend all night losing sleep  
I'd spend the night and I lose my mind  
If I spend the night then I lose my mind Spend all night losing sleep  
I'd spend the night and I lose my mind  
If I spend the night then I lose my mind
