

# I Still Miss You

Hawk Nelson

There she was  
5 foot 3, a picture of my mother's mother  
She showed me love  
And all the ways of GodHer final days were spent in bed  
Then she passed away  
I won't forget her smiling face  
When she left us that nightBut I still miss you  
All the times we spent together  
To hear you talk about the weather  
I always prayed you'd get well soonI wish my prayer came true  
I know that Jesus has the answer  
And He's way bigger than the cancer in you  
But I still miss youIf dreams came true  
Just one more chance to talk to you  
And thank you for the time you spent  
Teaching me the truthA boy back then  
I've grown up now I'm a man  
I can finally understand  
The things you said to meBut I still miss you  
All the times we spent together  
To hear you talk about the weather  
I always prayed you'd get well soonI wish my prayer came true  
I know that Jesus has the answer  
And He's way bigger than the cancer in you  
But I still miss youI need some help to carry on  
I need some strength to keep me strong  
I need some help to carry on  
I need some strength to keep me strongI need some help to carry on  
I need some strength to keep me strong
