

# Sing What You Can't Say

## Hoobastank

Right now its hard for me  
To let go and open up  
To tell you how I feel  
And what I m thinking of  
I know it hardly shows  
It doesnt mean that I m not trying  
Three little words  
One simple thing  
I never get it right  
So here I am  
Singing what I just cant say  
Need you to understand  
I love you doesnt quite explain  
So I m gonna sing what I cant say  
I m not the type to wear my heart upon my sleeve  
I m not an open book for everone to read  
And I hope you dont confuse  
My silence for just not caring  
Three little words  
Should say it all  
They just wont do tonight  
So here I am  
Singing what I just cant say  
Need you to understand  
I love you doesnt quite explain  
So I m gonna sing what I cant say  
Its such a simple thing to say  
Somehow it doesnt quite explain  
No it never comes out right  
So here I am  
Singing what I just cant say  
Need you to understand  
I love you doesnt quite explain  
So I m gonna sing  
Here I stand  
Singing what I just cant say  
I ll do the best I can  
I love you doesnt quite explain  
So I m gonna sing what I cant say
