Days of Rain

Blowsight

You say, you hate to be here
But I don't mind to meet the morning
The colours range from blue to everything between the red and green
You swallow needles to feel free
I'm overwhelmed, I need to breathe
It's got to be so damn hard to feel the way you feel about yourself
You're not alone, you're not aloneAnd when you're so in love that you cannot see
The pain in you and the pain in me
The love is blind and we can't deny it
The clouds are dark but we're moving on
You stand up straight but it's been too long
The love is blind and we can't deny it
In the days of rainYou close your eyes to disappear
You can't replace me without fear
The nights are so much longer than before
I don't believe in any stories
I'm the one to blame, my glory diesHow can it be so hard to change the way you feel about yourself?Yeah, you're not alone, you're not aloneAnd when you're so in love that you cannot see
The pain in you and the pain in me
The love is blind and we can't deny it
The clouds are dark but we're moving on
You stand up straight but it's been too long
The love is blind and we can't deny it
In the days of rain(When you're so in love)In the days of rain
It keeps pouring downAnd when you're so in love you're temple breaks
Train of tears and your body aches
Turn around the scars you show
Don't be afraid
You're not aloneIt keeps pouring down, yeahAnd when you're so in love that you cannot see
The pain in you and the pain in me
The love is blind and we can't deny it
The clouds are dark but we're moving on
You stand up straight but it's been too long
The love is blind and we can't deny it
The clouds are dark but we're moving on
You stand up straight but it's been too long
THe love is blind and we can't deny it
In the days of rain
