New Resolution

Heartless Bastards

Follow blind
Heavy eyes hold position
You were right on time
It was a lucky predictionMove on, move on
It's like the clock is pacing
The break of dawn
And our hearts are racingMove on, move on
There's nothing changingDon't undermine
My new resolution
Just to find
A different light, a new directionMove on, move on
Now the record's skipping
I won't forget, I won't forget
The way you saidMove on, move on
There's no point in waitingMove on, move on
It's like the clock is pacing
The break of dawn
And our hearts are racingMove on, move on
There's nothing changingMove on, move on
Now the record's skipping
I won't forget, I won't forget
The way you saidMove on, move on
There's no point in waiting
Ooh, ooh, ah, ah
