

# What To Wear

## Taylor Swift

Shes looking in the mirror  
The moments getting nearer  
She thinks about it as she walks her walk  
Up and down the staircase  
Makeup fresh on her face  
She thinks about it as she talks her talk  
School dance, first chance, always been a dreamer  
Theres one guy, shes shy, sees him through the mirror  
And everybody looks at her,  
She thinks about it  
Blue dress angel face, looking in the mirror,  
Shoes,purse, hair tied back and you should see her,  
Shes got her magic, floating through the air,  
Peace,Love,One thing leads into another  
Dream big,Aim small  
Man you gotta love her  
She's got her hopes up  
Got 'em up to there  
Wonderin' what to wear  
She's standing in her bedroom  
He'll be pullin' up soon  
She thinks about it as she sees headlights  
Looking out the window she's got her diary to show  
That she's been waiting for this all her life  
First date,can't wait  
Lookin' in the mirror  
Heart all wrapped up  
Wait until he sees her  
He's lookin' right at her  
She thinks about it

Sixteen blue jeans Abercrombie t-shirt  
Shoes purse hair tied back and you should see her  
She's got her magic floating through the air  
Peace, Love,One thing leads into another  
Dream big, Aim small  
Man you gotta love her  
She's got her hopes up  
Got 'em up to there

Wonderin' what to wear  
The years went by  
The mirror saw her cry  
She got up again  
She got up again  
The wind blew by the small town lights  
She got up again  
Move out  
Find out where the world can take her  
Bright lights late nights livin' for the greater  
Move to Paris livin' on a prayer  
Peace, Love, One thing leads into another  
Dream big, Aim small  
Man you gotta love her  
She's got her hopes up  
Got 'em up to there  
She's got her hopes up  
Got 'em up to there  
Wonderin' what to wear  
Ooo Ooo  
Wonderin' what to wear
