Devil May Cry

If you said to me, if only.
If you tried to be, would you dare?
A fool requires sound reason for their actions.
Could a heart begin to tolerate?
If you only knew.

My eyes can see without you.
Without you over me.
I've fallen down in shame.
You never falter.
This meal tickets now moving on.
So glad to see you go.

Could you be the one, the only?
Could you hide a face of insincere?
The consequence of treason is nothing but a glance to the one who lives their life in vain.
If you only knew.

My eyes can see without you.
Without you over me.
I've fallen down in shame.
You never falter.
This meal tickets now moving on.
So glad to see you go.

Pack your shit.
It's time for you to go.
Selfish bitch.
It's time for you to cry my name in vain just a little longer till I try to throw you away.
Throw you away.
I have nothing left to say to you.
I have nothing left to take from you.
I have nothing left to fix for you.
I can throw you away.
Throw you away.
You piece of shit.

Go home!
