Forget the Lies

Quietdrive

Do you think about the time when you were young?
Fist wrapped around the world but then it spun out of control
Because you let the right one go
Everything is not just how it seems
You've given up on hope and all your dreams
Have been distorted by the glass of gin you pour tonightGuess you're coming clean, you thought that I'll stay singing
Makes you crack his head and dreaming so long, so longForget the lies, the lies that you're never enough
Cause you're alive and it's time to get over yourself
We can forget the past, turn it back on track
That's where we should be
Just memorize in your heart that you're beautifulHave you ever felt broken, defeated
Marked with scars from the laugh that they can see it wwll
You found out, you gave up, you lost touch
And then you crawled out of the rock you came from
But the people ain't smile at the end of the road
And the folks who didn't listen to anything they were told
Just stood up, walked out the front back
Because I had faith that we would have it all againForget the lies, the lies that you're never enough
Cause you're alive and it's time to get over yourself
We can forget the past, turn it back on track
That's where we should be
Just memorize in your heart that you're beautifulYou say that we're never gonna be the same
You say that we're never gonna be the sameForget the lies
Forget the lies
Forget the lies
That everybody told youForget the lies
Forget the lies
Forget the lies
That everybody told youForget the lies, the lies that you're never enough
Cause you're alive and it's time to get over yourself
We can forget the past, turn it back on track
That's where we should be
Just memorize in your heart that you're beautiful
