Blood In Gutters

Brody Dalle

Out of the gods unto the earth
Under the sky back into the dirt
You have a secret deep down inside,..and I know
A horror to tell
A nightmare to hideFind your weakness and kill it
Find your weakness, go on, kill it
So long, good riddanceThere's blood in the gutters, it's flooding the path
Killing us slow chemical wrath
Suffer the madness cling to the birth
Of a new era to hell with our worth
