Good Times

Bobbi Humphrey

You and I have travelled long uncharted courses
We get tossed around and many times on a dark and stormy sea
And now the clouds are parted and the sun is shining through
And it feels just good knowing that youâ€™re here along with me

To share the good times that we waited for so long
I know the good times will prove we werenâ€™t wrong
To hold on the dreams of how we knew that it could be
We worked so hard at easing all the pain and misery
Until the good times had come around for you and me
And now theyâ€™re here, now theyâ€™re here

I remember all the hard times when there wasnâ€™t much to eat
And the longest coldest winter when we couldnâ€™t get much heat
But we had all we needed with love enough to spare
Cause more than money we had what I knew would get us here

To share the good times that we waited for so long
I know the good times will prove we werenâ€™t wrong
To hold on the dreams of how we knew that it could be
We worked so hard at easing all the pain and misery
Until the good times had come around for you and me
And now theyâ€™re here, now theyâ€™re here

We fought and won each battle that we had to fight
Even made it through the darkness when we couldnâ€™t see the light
And deep inside I guess we always knew that we were right
To try and catch that star cause baby here we are

I remember all the hard times when there wasnâ€™t much to eat
And the longest coldest winter when we couldnâ€™t get much heat
But we had all we needed with love enough to spare
Cause more than money we had what I knew would get us here

To share the good times that we waited for so long
I know the good times will prove we werenâ€™t wrong
To hold on the dreams of how we knew that it could be
We worked so hard at easing all the pain and misery
Until the good times had come around for you and me
And now theyâ€™re here, now theyâ€™re here
