

I

Black Sabbath

I am anger
Under pressure
Locked in cages, a prisoner
The first to escape I am wicked
I am legion
Strength in numbers, a lie
The number is one I, I
Everything that I see is for me Yes, I am giant
I'm a monster
Breaking windows in houses
Buildings of glass Rebel, rebel
Holy outlaw
Ride together, don't try it
The power's in one I, I, I
I am standing alone
But I can rock you
I, I, I
On the edge of the blade
But the knife can't cut the hero down I am virgin
I'm a whore
Giving nothing, the taker
The maker of war I'll smash your face in
But with a smile
All together you'll never
Be stronger than me I, I, I
Right here on my own
But I still rock you
I, I, I
Don't follow behind
Just leave me on the outside I, I, I
I am standing alone
But I can shock you
I, I, I
On the edge of the blade
But no one makes the hero bleed No, no, no
No, no, no I am hunger
(No, no, no)
Feed my head
(No, no, no)

All together you'll never
Never make the hero bleed
(No, no, no)
